The college provides opportunities for people to further meet their educational goals by offering programs which enable people to pursue occupational, vocational, cultural, and civic interests.

The college strives to serve the needs of the adult community by providing numerous programs of continuing education. Adult programs are held on a continuing basis and are developed according to the community's needs and interests. Courses include formal academic learning, cultural advancement, vocational and technical improvement, and personal enrichment. Any individual who is eighteen years of age or older or is a high school graduate may be admitted to these classes.

CLASS LOCATIONS

Classes are held on campus and at various other locations throughout Iredell County. Some of the locations are South Iredell High School, Iredell Department of Correction, Mooresville, and various industries throughout the county. An extension center is located at the Woods Elementary School in Mooresville.

ATTENDANCE

Most classes are scheduled on a quarterly basis. Special workshops and industrial courses are scheduled whenever necessary. Brochures are available each quarter to provide class schedules. Announcements will be made through local news media, including radio stations and the local newspaper. Classes usually meet one to three hours each night. Regular attendance should be maintained. For courses offering certificates, eighty per cent attendance is required.

FEES AND SUPPLIES

A registration fee of \$5.00 is charged for adult classes and is due at the beginning of the course. Students enrolled in courses for Adult Basic Education, Volunteer Fire Departments, local law enforcement, the Department of Correction, and persons 65 years of age or older are exempt from the registration fee. Books are available at the college bookstore or from the instructor when the class meets. The cost of supplies varies according to individual courses.

CONTINUING EDUCATION UNIT

Continuing Education Units are awarded to all classes with the exception of Adult Basic Education, Adult High School, and craft classes. A Continuing Education Unit is defined as "ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction." These units provide a means of recording and accounting for non-credit courses, programs, and activities.

ADULT BASIC EDUCATION

The Adult Basic Education Program is designed to assist adults in the fundamentals of English, math, reading, science, and social studies. Classes are set up at various times and locations for the convenience of students, and all materials except paper and pencils are provided. In addition to small group instruction, the opportunity for assistance on a one-to-one basis exists through the Learning Labs in Statesville and Mooresville. There is no charge for the classes or the lab. Upon completion of the ABE program students may enroll in the Adult High School Diploma program. It is recommended, but not required, that students complete the ABE program before entering the GED High School Equivalency Program.

ADULT HIGH SCHOOL DIPLOMA PROGRAM

This program is recommended for persons who want or need a more academic program of high school completion, for example, those planning to attend college or to enlist in the Armed Forces. The courses of study required for all students are English, science, social studies, and math. Instruction is offered in regular groups of classroom work if there is a sufficient number of students or through supervised individual work in the Learning Labs in Statesville and Mooresville. Upon completion of course work, the student takes a standardized test on each subject. When the student passes the four subject tests and the North Carolina Competency Test, he/she is awarded a diploma by the Mooresville or Statesville City School system.

The following requirements must be met before entering the Adult High School Diploma program:

1. Residence: A legal resident of the Mitchell Community College service area.
2. Minimum age: 18. Persons between the ages of 16 and 18 may enroll with the written permission of the Superintendent of Schools and a notarized permission letter from a parent or guardian.
3. Cost: \$5.00 registration fee for each high school class. No charge for students attending the Learning Lab.

G.E.D. HIGH SCHOOL EQUIVALENCY PROGRAM

Under this program, individuals may take a series of tests called the General Educational Development Tests. A person's knowledge and skills are tested in five areas: reading, mathematics, natural science, English and social studies. The Equivalency Certificate is issued by the North Carolina State Board of Education and is mailed to the recipient. The certificate is recognized as the equivalent of a high school diploma by industry, agencies of government, employers, colleges, and other organizations.

The following requirements must be met before taking the GED tests:

1. Residence: A legal resident of North Carolina.
2. Minimum age: 18. If one is between the ages of 16 and 18 and displays a special need, he/she may be allowed to take the GED tests by filing a special form which is available from the GED Examiner of the Continuing Education Office. This form requires a notarized parental permission to take the tests, as well as the permission of the Superintendent of Schools.
3. Cost: \$5.00 initial testing fee.

If a person fails one or more tests, he/she may retest after a six-month waiting period. Those who wish to retest before that time must complete a program of study in a class or Learning Lab. Persons who wish to review before testing may also do so in a class or Learning Lab.

The tests are given one week in every month. Interested persons should pre-register for the tests with the GED Examiner at the Continuing Education Office.

THE LEARNING LABS

The Learning Labs, housed on campus in Statesville and in Woods School in Mooresville, provided adults with individually scheduled, planned, and paced instruction in three major areas of concentration; high school completion, curriculum support, and special interest. The high school completion component consisted of proper placement and referral, instruction in the Adult High School Diploma courses, and preparation for the GED tests. The curriculum support component provided supplementary assistance to students enrolled in campus curriculum courses. The special interest component included courses for self-improvement, enrichment, and credit, with actual credit awarded by outside institutions.
